SUMMARY

Front-end web developer and open-source enthusiast with love for clean code and accessible design. Pair-programming and remote work aficionado. Fluent in multiple languages, frameworks, and technologies, and capable of ramping up quickly and efficiently.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3.
Back-End: Ruby, Rails, MySQL, PHP.
Tools & Methods: Git, GitHub, Mobile/Responsive Development, TDD, Chrome Dev Tools.
Professional: Remote Pair-Programming, Teamwork, Mentoring.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Development Student & Mentor   Month, Year – Present

Mastered intermediate and advanced topics in full-stack development (including Rails, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair programming.

Math-magician — "Math Magicians" was a website for all fans of mathematics. It was a Single Page App (SPA) that allows users to: Make simple calculations. Read a random math-related quote.
Built with: React, Git, and GitHub.

Franck-Ezra-capstone — This JavaScript capstone project was about building a web application based on an external API.
It was a restaurant application that shows us the dishes, allows us to like these dishes, and even commented on everything thanks to communication with an API.
- Built with: Webpack, JavaScript, Html/CSS, Bootstrap 5, Git, and GitHub.

Gedeon-App — This application was a web application designed to help get a better idea of your business, a business that affects the loan of tractors and a small business, and manage the staff who work in these 2 small activities.
- Built with: JavaScript, Bootstrap 5, HTML/CSS, PHP, Git, and GitHub.

MICROVERSE   Remote
Mentor (Volunteer)   Month, Year – Month, Year
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

ORGANIZATION   City, Country
Position Title   Month, Year – Month, Year
- The creation of a desktop web application (Gedeon-App) application has helped to greatly improve the management of a small local business that rents tractors + drivers to agronomists
- The creation of Pharmacie-Maria application, the application has greatly improved the business by allowing everyone to have their own application despite the size of their business (large, medium, and small)

EDUCATION

MICROVERSE   Month, Year – Month, Year
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

University: ULPGL/Goma
Bachelor of Computer Engineering (In Progress), Expected Graduation Date June 2023.
